Dear «First_Name» «Last_Name»:

It is with a heavy heart that I am contacting you to let you know on the evening of November 24, 2015, I learned of a cyberattack to my computer. The cyber attacker tried to get private information about my current and former clients with data on my computer.

The information that may have been taken would be the information on your tax return: name, address, social security number, birthdate, sources of income and tax deductions.

The next morning I contacted the Vacaville Police Department, The Federal Trade Commission, State of California Department of Justice Office of the Attorney General, and the Internal Revenue Service.

I want to make you aware of steps you may take to guard against identity theft or fraud. Please review the enclosed information about Identity Theft Protection.

As an added precaution, I have arranged to have AllClear ID, a leading and trusted identity protection provider, to protect your identity for **12 months at no cost to you**.
